

***Men who desire to better themselves,  
through lifelong learning, can make  
a lasting impact on their world.***

It's more than a social brotherhood. Sigma Chi is redefining the idea of Fraternity on almost 250 campuses across North America. Are you ready to take on the challenge of leadership and do some good? Sigma Chi will help you become a better man, a standout student, a transformational leader and a true friend.

*Sigma Chi guides its members in building accomplished lives on a foundation of noble principles — inspiring a lifetime of action for the greater good.*

Sigma Chi alumni such as Significant Sigs Luke Bryan, GEORGIA SOUTHERN 1999 (left), Brad Pitt, MISSOURI-COLUMBIA 1986 (top right) and Sean Payton, EASTERN ILLINOIS 1987 (bottom right), have won Super Bowls, World Series, Academy Awards, Emmys, Golden Globes, Grammys and Pulitzer Prizes. They've also led Fortune 500 companies, held prominent political positions, stepped foot on the moon, made scientific breakthroughs and more.

## A Lifelong Commitment

More than 365,000 men have been initiated into Sigma Chi. Our Fraternity has the most robust alumni presence in the Greek-letter world with 122 alumni groups, 112 alumni chapters and more than 63,000 Life Loyal Sig members.

Thanks to our alumni, the Sigma Chi Foundation provides more educational and academic scholarship support for our members than any Greek-letter organization.

## Leadership & Growth

In 2022, Sigma Chi became the first and only Greek-letter organization to offer members critical leadership skills through the revolutionary Transformational Leader program, developed by its own accredited institution, Sigma Chi Leadership Institute (SCLI). Members have the opportunity to earn leadership certificates from SCLI.

## Philanthropy & Awareness

Through our partnership with the Huntsman Cancer Institute and other regional charities, our chapters provide more philanthropic dollars than any other Greek-letter organization. **Sigma Chi chapters contributed more than \$3.5 million to the Huntsman Cancer Institute during the 2022 to 2023 academic year.**
